HABIB MOHAMMED BESHIR

FULL STACK WEB DEVELOPER

Addis Ababa, Ethiopia | +251 900 577 904 | habibmoh7904@gmail.com
GitHub: https://github.com/habib-dev7904 | Portfolio: https://habib-official-portfolio.vercel.app/

PROFILE SUMMARY

Self-taught Full Stack Web Developer with practical experience building modern web applications using JavaScript technologies. Skilled in developing responsive frontend interfaces, integrating backend functionality and APIs, and working with databases. Passionate about solving problems, learning new technologies, and creating clean, maintainable web solutions.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, REST API development, SQL, backend integration

Tools: Git, GitHub, Visual Studio Code, API testing

PROJECTS

YFlow — Purpose-Driven Productivity App

Project founder | Technologies: Flutter, Dart (Android app)

• Founded and am building YFlow, a productivity app designed to help people stay intentional about social media use and reconnect with their focus goals.

• Shaping a purpose-first experience with focus sessions and gentle interruptions rather than strict blocking.

Website repository: github.com/habib-dev7904/YFlow-website

PrepWise — Full Stack Web Application

Technologies: Next.js, Tailwind CSS

• Built a web application using Next.js with responsive, modern user interfaces.

• Worked on frontend and backend integration and reusable components.

• Focused on clean development practices and user experience.

Repository: github.com/habib-dev7904/prep-wise_ai

Personal Portfolio Website

Technologies: Next.js, Tailwind CSS, JavaScript

• Designed and developed a responsive portfolio to present projects, skills, and professional information.

• Created reusable UI components and modern layouts.

• Focused on clear presentation and user experience.

Repository: github.com/habib-dev7904/HabibOfficial-Portfolio

EXPERIENCE
